ELSTON

CORE

ELSTON CORE SERIES

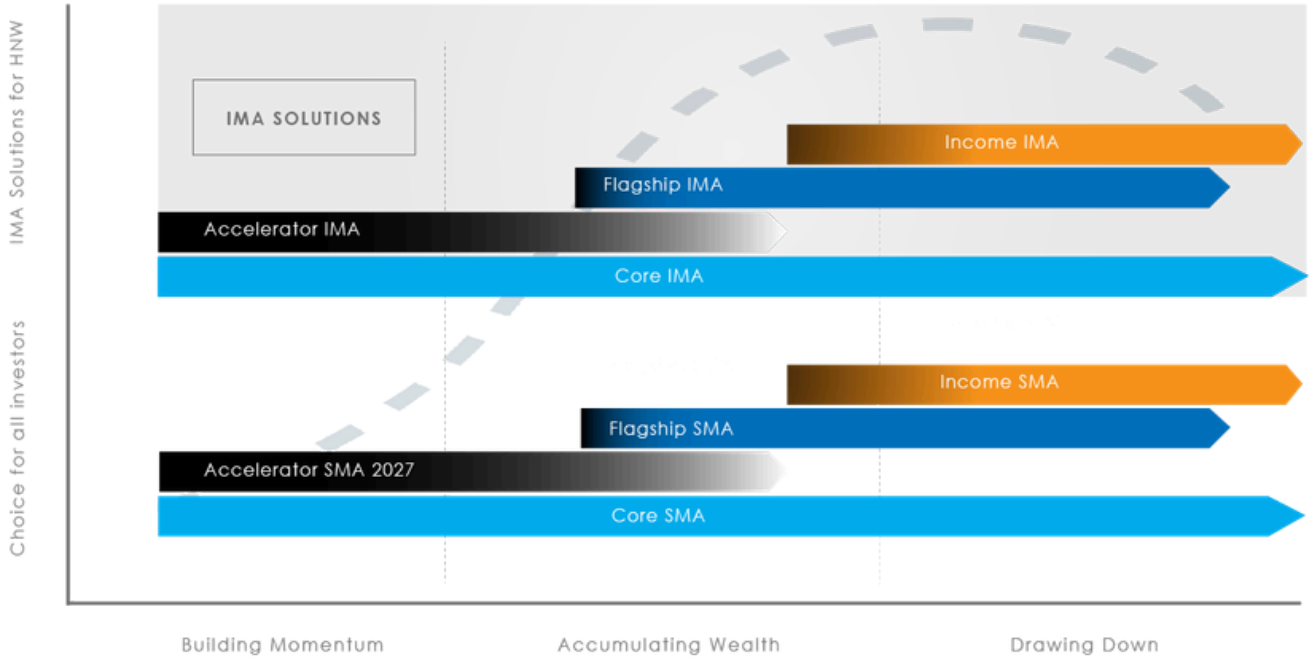

Staying within the benchmark orbit

Elston Core is designed to deliver market-aligned returns through a benchmark-aware investment approach. The portfolio is built around a core of familiar ASX names and is best described by the following characteristics:

- Lower performance variation relative to benchmark outcomes
- Built around the ASX50
- Active security selection seeking incremental alpha
- Diversified and actively managed

ELSTON

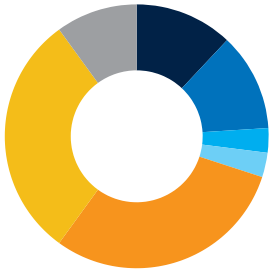

Elston Core Series delivers greater choice across the wealth journey

Many investors will want to pursue growth in the early years of their wealth journey. Others will focus on income as they near retirement.

But for some, the idea of staying close to the index, regardless of where they are on their wealth journey, is much more attractive.

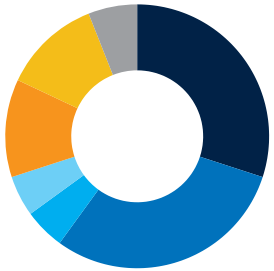

Elston Core Series is designed to provide this choice.

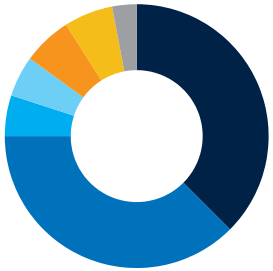

Core 30*

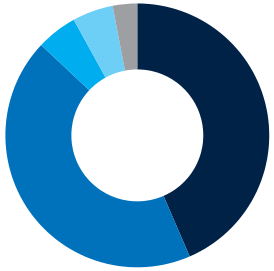

Core 50

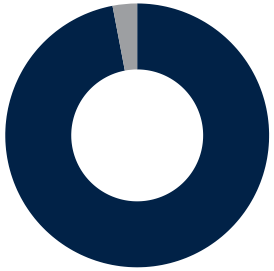

Core 70

Core 85

Core 97

Core AEQ

- Australian Equities
- International Equities
- Global Listed Property
- Global Listed Infrastructure
- Australian Fixed Interest
- International Fixed Interest
- Cash

Within Elston Core Series is a choice of Core 50, Core 70, Core 85, Core 97 and Australian Equities Core portfolios that are diversified across asset classes such as Australian and international equities, property and infrastructure; and defensive oriented asset classes, such as cash and fixed interest securities.

In addition to utilising managed funds and ETFs, our actively managed portfolios incorporate a direct ASX50 Australian equities exposure, which not only provides a high degree of transparency, but also maximises the benefits of franking credits for Australian investors.

*IMA Only

Core is available through AMP North, Hub24 and Netwealth (coming soon)

ELSTON

AMP North HUB24 netwealth

Elston Core Series will be launching on additional platforms over 2026.
